CSCS User Lab Day – Meet the Swiss National Supercomputing Centre

September 11, 2018 in Lucerne

Why do we meet today?

- To inform (future) users about short and mid-term CSCS development
- To give the opportunity to new communities to get to know CSCS
- To get feedback from you to improve our services to science

Agenda

10:40 – 11:30 Keynote scientific presentation – **Professor Vanessa Wood**, Chair in Materials and Device Engineering in Department of Information Technology and Electrical Engineering at the Swiss Federal Institute of Technology (ETH Zürich)

Agenda

11:30 – 12:30 Parallel sessions:

- Containers – **Auditorium**
- Debugging & Performance – **Room 02**
- Compiling – **Room 03**
- Scientific Visualization and I/O lib – **Room 10**

12:30 – 13:30 Lunch in the Foyer

Agenda

13:30 – 14:30 CSCS Plenaries:

Updates from “*User Engagement & Support*” Unit:

Maria Grazia Giuffreda and Guilherme Peretti-Pezzi
from “*HPC Operations*” Units: Nicholas Cardo

14:30 – 15:30 Parallel sessions:

- Continuous Integration – **Auditorium**
- Interactive Computing (Python-Jupyter) – **Room 02**
- Workflows and best practices – **Room 03**
- CSCS Services to support your scientific work – **Room 10**

Agenda

Please do not leave your stuff in the rooms because they will be locked at the end of the parallel session ~15:30

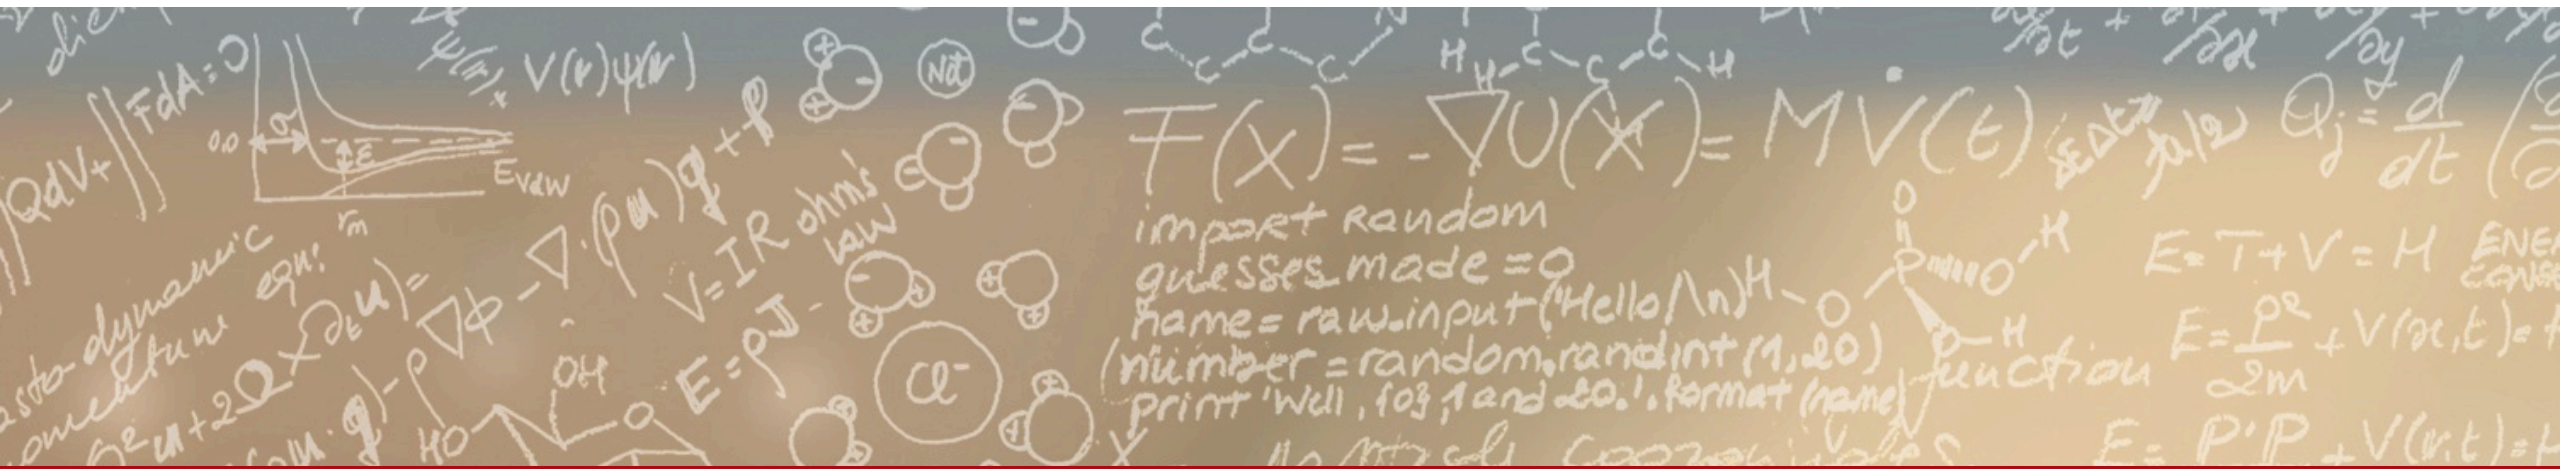

15:30 Apéro in the Foyer and discussion with participants
